

Dear Honourable Judge and court of NY State,

My name is Petri Tuomela, a Finnish Citizen who has invested over 50 thousand USD for Celcius Network's loan service. I have always been very conservative investor and invested to Celcius's service ONLY, because Alex Machinsky has continuously stated, every Friday, that they are secure.

They have made claims such as:

- Celsius is an alternative to conventional banks, they are safer than banks
- They have over 2 billion in their balance sheet
- They raised 750 million "to secure customer assets if something goes wrong"
- Continuously assured that the funds are safe

And so on. The whole company is a lie, we were lied to! We were deceived, I am embarrassed, sad and angry that my life savings were invested to a "bank" which was a lie. This will have significant ramifications to my retirement and it is beyond awful.

I hope, from the bottom of my heart that you, the Judge, will consider that the management of Celsius cannot continue operating the business and needs to be replaced. There are excellent alternative plans to turnaround the company like from Simon Dixon (BankToTheFuture) who would offer transparency, compliance to regulations and #depositorsfirst.

I am of course selfish and want my money back. But equally, I hope that if I lose the money, it is done via plan to restore the company, with management that honestly tries to save the assets, which operates with transparency, and does not lie. Current management has shows disregard to regulations and has proven to be liars.

Sincerely,
Petri Tuomela
Finland
